europa is inseparable from its history that history has been extensively studied in terms of its political history its economic history its religious history its literary and cultural history and so on could there be a distinctively philosophical history of europa not a history of philosophy in europa but a history of europa that focuses on what in its history and identity ties it to philosophy in the two volumes of europa a philosophical history the promise of modernity and beyond modernity simon glendinning takes up this question telling the story of europa s history as a philosophical history in part 1 the promise of modernity glendinning examines the conception of europa that links it to ideas of rational enlightenment and modernity tracking this self understanding as it unfolds in the writings of kant hegel and marx glendinning explores the transition in europa from a conception of its modernity that was philosophical and religious to

one which was philosophical and scientific while this transition profoundly altered Europe's own history. Glendinning shows how its self-confident core remained intact in this development but not for long. This volume ends with an examination of the abrupt shattering of this confidence brought on by the first world-wide war of European origin and the imminence of a second. The promise of modernity was in ruins; nothing for Europe would ever be the same again. Part 2, *Beyond Modernity*, is available now from Routledge. ISBN 9781032015828
