cont evolutionary analyses of vertebrate aromatases revealed striking functional conservation although much work is required these data show that similar to cyplal aromatase studies in other mammals are applicable to cetacean species experimental work in model organisms coupled with careful studies with cetacean tissues could infer the physiological role and transcriptional control of aromatase in cetacean species

june issues 1941 44 and nov issue 1945 include a buyers guide section

this catalogue was first envisaged as a biography of pleyel with the traditional appended list of works plus an account of the music publishing enterprise he founded after he left strasbourg to settle in paris as the project progressed however it became obvious that the vast number of pleyel's compositions together with the detailed documentation needed to clarify the interrelationships of the numerous arrangements and variants required a separate publication it was equally clear that the authoritative biography could not be written until the snarled web of his works was untangled and the compositions identified with more precision than had been previously attempted the time had unquestionably arrived to abandon the helplessness and resignation evinced by scholars for over a century when confronted with the ordering of pleyel's oeuvre it had to be faced head on

at the request of onr code 11250a the woods hole oceanographic institution dr james f lynch convened a workshop to bring together a group of acoustic and ocean modelers to review and discuss 1 the state of development and the need for three dimensional numerical acoustic research propagation and scattering models 2 the interfacing of acoustic models with available oceanographic data and ocean model outputs the workshop was hosted by the institute for naval oceanography dr ching sang chiu at long beach ms on july 7 8 1988 this report summarizes the research presentations and the recommendations made by the group the workshop was an initial attempt to promote the interaction between the ocean and acoustic modeling communities this interaction between the communities is essential to the development of truly interactive basic research acoustic and ocean models we anticipate more workshops of such nature to be held in the future the findings and recommendations generated by these workshops are expected to have a strong impact on the direction of future three dimensional modeling research in both acoustics and oceanography
