explores the distinctive musical and poetic features of clara schumann s songwriting and

her central contribution to the art song genre

the munich school of composers active from the last decades of the nineteenth century and into the twentieth embraced wagner s harmonic language but eschewed the compositional devices associated with modernism their compositional approach produced a unique form of late romanticism that is highly sophisticated and yet appealing and accessible to a sizable public this anthology presents fifty two songs in eleven collections by seven composers from the cultural and music educational milieu of munich while each composer developed his own personal style there is also much that binds the songs together with respect to both the compositional techniques and literary tastes of their authors much beyond the usual shared features of turn of the century music in general [url areditions com rr rrn n054 html](http://areditions.com/rr/rrn/n054.html)

this book puts forward an interpretation of the canticle which is alert to the literal sense of the poem the author thus distances himself both from the allegorical interpretation and from an interpretation that is purely secular according to the author the song offers a theological vision of human love barbiero sees the song as composed in the third century bc in the hellenistic epoch but also as hugely dependent on the love poetry of the ancient near east particularly that of egypt above all however the song was composed in dialogue with the other books of the old testament especially in contrast with the negative view of sexuality which they represent the study pays particular attention to the structure of the poem and of the individual cantos for barbiero the song is a closely unitary work and is only to be understood as a whole

the song of songs is a fascinating text read as an allegory of god s love for israel the church or individual believers it became one of the most influential texts from the bible this volume includes twenty three essays that cover the song s reception history from antiquity to the present they illuminate the richness of this reception history paying attention to diverse interpretations in commentaries sermons and other literature as well as the song s impact on spirituality theological and intellectual debates and the arts

the exemplary bride ecclesia and mary middle english transitions the case of richard rolle mourning and marriage in saint bernard s sermones and in pearl
