an assessment of the impact of the post mao market orientated reforms in china on the chinese state and its relations with economy and society it investigates the political and social consequences of an economic strategy which aims to introduce markets into a centrally planned socialist economy

this volume focuses on the important issues raised by the recent economic reforms of the centrally planned economies of china south east asia eastern europe and the soviet union participation in the international trade regime and how this may be affected by the economic reforms implications of the

reforms for economic relations with developing countries and development assistance performance participation in international monetary and financial regimes and how this may be affected by economic reform and the impact of economic reform on regional integration schemes are all analysed in depth

the authors professors of economics at the u of queensland australia offer a comparative analysis of the developmental experiences of china and india applying quantitative analysis to investigation of economic social political and environmental aspects of the countries development from the 1950s forward after comparing the initial conditi

this book is part of a series which makes available to english speaking audiences the work of the individual chinese economists who were the architects of china s economic reform the series provides an inside view of china s economic reform revealing the thinking of the reformers themselves unlike many other books on china s economic reform which are written by outside observers ma hong 1920 2007 was one of the leading advocates for china s market oriented reforms one of the earliest scholars to adopt the concept of a socialist market economy politically active from the 1930s when he campaigned against the japanese occupation he held many important posts notably president of the chinese academy of social sciences in the 1980s he was particularly influential in the field of industrial economics putting to use his own experiences of managing industrial enterprises and a strong advocate of the need for china s economic development to be stable the book is published in association with china development research foundation one of the leading economic and social think tanks in china where many of the theoretical foundations and policy details of economic reform were formulated

????????????????

the recent debate between dabrowski gomulka and rostowski 2001 and stiglitz and ellerman 2001 as to key factors determining the success or failure of policies of liberalisation and privatization illustrates the need for a concise theoretical foundation as to how when and where policies that change underlying economic structures can be applied this paper outlines such a model which is based on the perception

of gradations in the process of development and that the introduction of new ownership structures market mechanisms and financing techniques are not necessarily solutions without providing for changes in economic societal and legal infrastructures
