Robert Geraci presents an exceptionally original account of both the politics and the lived experience of diversity in a society whose ethnic complexity has long been downplayed for centuries. Russians have defined their country as both a multinational empire and a homogeneous nation state in the making and have alternately embraced and repudiated the east or asia as fundamental to Russia's identity. The author argues that the city of Kazan in the middle Volga region was the chief nineteenth century site for mediating this troubled and paradoxical relationship with the east. Much as St. Petersburg had served as Russia's window on Europe a century earlier, he shows how Russians sought through science, religion, pedagogy, and politics to understand and promote the Russification of ethnic minorities in the east, as well as to define themselves. Vivid in narrative detail, meticulously argued, and peopled by a colorful cast including missionaries, bishops, peasants, mullahs, professors, teachers, students, linguists, orientalists, archeologists, and state officials, *Window on the East* uses previously untapped archival and published materials to describe the creation, sometimes intentional, sometimes unintentional, of intermediate and new forms of Russianness.

A study undertaken by the author in the late 1890s of several villages in the province of Riazan in order to meet the need for information about the actual life conditions, attitudes, and aspirations of the peasantry in Russia.

An analysis of law and imperial rule reveals that Tsarist Russia was far more lawful than generally assumed.

The Society for the Promotion of Enlightenment among the Jews of Russia (OPE) was a philanthropic organization, the oldest Jewish organization in Russia, founded by a few wealthy Jews in St. Petersburg who wanted to improve opportunities for Jewish people in Russia by increasing their access to education and modern values. OPE was secular and nonprofit; the group emphasized the importance of the unity of Jewish culture to help Jews integrate themselves into Russian society by opening, supporting, and subsidizing schools throughout the country while reaching out to Jews across Russia. OPE encountered opposition on all fronts; it was hobbled by the bureaucracy and sometimes outright hostility of the Russian government, which imposed strict regulations on all aspects of Jewish lives. the revolutionary movements in late tsarist russia inspired a reaction by groups on the right although these groups were ostensibly defending the status quo they were in fact as this book argues very radical in many ways this book discusses these radical rightist groups showing how they developed considerable popular appeal across the whole russian empire securing support from a wide cross section of society the book considers the nature and organisation of the groups their ideologies and policies on particular issues and how they changed over time the book concludes by examining how and why the groups lost momentum and support in the years immediately before the first world war and briefly explores how far present day rightist groups in russia are connected to this earlier movement
