Human Extinction Émile P. Torres

Human Extinction *Émile P. Torres*

this volume traces the origins and evolution of the idea of human extinction from the ancient presocratics through contemporary work on existential risks many leading intellectuals agree that the risk of human extinction this century may be higher than at any point in our 300 000 year history as a species this book provides insight on the key questions that inform this discussion including when humans began to worry about their own extinction and how the debate has changed over time it establishes a new theoretical foundation for thinking about the ethics of our extinction arguing that extinction would be very bad under most circumstances although the outcome might be on balance good throughout the book graphs tables and images further illustrate how human choices and attitudes about extinction have evolved in western history in its thorough examination of humanity s past this book also provides a starting point for understanding our future although accessible enough to be read by undergraduates human extinction contains new and thought provoking research that will benefit even established academic philosophers and historians
