perspectives in sociology provides students with a lively and critical introduction to sociology and to the ways in which sociologists are trained to think and work the subject is presented as a sequence of different perspectives on the social world all of them interrelated sometimes in conflict with one another and all contributing important and necessary insights the discussion is backed up by extensive reference to empirical studies this edition has been completely revised a chapter on critical theory has been added in order to reflect the extensive work and thinking that marx's basic work continues to stimulate the chapter on research strategies now takes account of new developments in the philosophy of science that are relevant for sociological approaches throughout the authors have rewritten extensively in their continuing desire to produce clarity and to respond to the comments of students and teachers

from its first edition in 1979 perspectives in sociology has provided generations of undergraduates with a clear reassuring introduction to the complications of sociological theory this revised and updated edition features a completely rewritten general introduction and conclusion all new introductions to each part clarifying how each one builds on what came before an updated set of formative questions at the end of each chapter a comprehensive glossary of key terms while retaining its emphasis and wealth of information on the founding figures of sociology this sixth edition includes new tools that will allow students from related

disciplines to access relevant sociological material quickly

presents a selection of forty six readings that provide an introduction to the sociological perspective look at how sociologists conduct research examine the cultural underpinnings of social life and discuss social groups and social structure gender and sexuality deviance and social stratification institutions and change
