this volume builds a conceptual basis for assessment promoting learning in content and language integrated learning clil classrooms and proposes practical assessment approaches and activities that clil teachers can apply in the classroom clil as an educational context is unique as language and content learning happen simultaneously the efficacy of such instruction has been studied extensively but assessment in clil classrooms has drawn much less attention the present volume aims to fill this gap arranged based on different ways that content and language are integrated in clil the chapters in this book together build a solid theoretical basis for assessment promoting learning in clil classrooms the authors discuss how assessment eliciting this integration yields insights into learners abilities but more importantly how these insights are used to promote learning the contributors to the volume together build the understanding of classroom based assessment as cyclic of teaching learning and assessment as inter related and of content and language in clil classrooms as a dialectical unity this volume will spark interest in and discussion of classroom based assessment in clil among clil educators and researchers enable reflection of classroom assessment practices and foster collaboration between clil teachers and researchers the assessment approaches and activities discussed in the volume in turn will help educators understand the scope of applications of assessment and inspire them to adapt these to their own classrooms

this volume explores a highly topical issue in second and foreign language education the spreading practice in mainstream education to teach content subjects through a foreign language clil has been enthusiastically embraced as a language enrichment measure in many contexts and finally research can offer principled insights into its dynamics and potentials the editors introductory and concluding chapters offer a synthesis of current clil research as well as a critical discussion of unresolved issues relating both to theoretical concerns and

research practice the individual contributions by authors from a range of european contexts report on current empirical research in this dynamic field the focus of these chapters ranges from theoretical to empirical from learning outcomes to classroom talk examining both the written and spoken mode across secondary and tertiary educational contexts this volume is a valuable resource not only for researchers and teachers but also for policy makers

this book provides a theoretically based approach to the integration of language and content in primary and secondary contexts drawing on their wide experience as clil educators and researchers the authors explore data collected in real clil classrooms from two interrelated perspectives the clil classroom as an interactional context for developing language and content and the genres and registers through which the meanings of the different academic subjects are enacted from the analysis of this corpus of data the authors provide a rich description of how clil students language works and may be expected to develop also available separately as a hardback

this edited volume presents a collection of empirical studies examining the teaching and learning processes in science classrooms in content and language integrated learning clil contexts it is a timely contribution to the rapidly growing body of clil research in response to scholars consistent calls for more classroom based research on the issues in integration of content and language teaching in lessons with the dual goal of content and language learning students in clil programmes are also facing double challenges mastery of abstract cognitively demanding content knowledge and unfamiliar academic language focusing on the notion of scaffolding this edited volume demonstrates how science teachers can provide appropriate and timely scaffolding for their students to overcome the challenges in clil science classrooms with studies from different educational settings hong kong mainland china singapore and australia and epistemological paradigms and adopting a variety of research designs this volume will provide key insights into clil pedagogy and teacher education originally published as special issue of journal of immersion and content based language education 7 2 2019

the label clil stands for classrooms where a foreign language english is used as a medium of instruction in content subjects this book provides a first in depth analysis of the kind of communicative abilities which are embodied in such clil classrooms it examines teacher and

student talk at secondary school level from different discourse analytic angles taking into account the interpersonal pragmatics of classroom discourse and how school subjects are talked into being during lessons the analysis shows how clil classroom interaction is strongly shaped by its institutional context which in turn conditions the ways in which students experience use and learn the target language the research presented here suggests that clil programmes require more explicit language learning goals in order to fully exploit their potential for furthering the learners appropriation of a foreign language as a medium of learning

this book explores some of the recent research undertaken on content and language integrated learning clil it offers an overview of several european contexts describing experiences that could be extrapolated to many other communities worldwide contributions focus on issues related to language policy moving from high level policymaking to grassroots decisions but all of them encompassing the major changes that can be recognized in education which also evidence the shifts in society and economic life that have taken place in europe in the last decades these changes in language policy issues are coupled with changes in clil practice in the classroom these national initiatives are displayed across a wide range of educational perspectives portraying the diversity that is a distinctive feature of clil in the european educational mosaic by providing new insights into pedagogic methodological and language policy issues in clil and by covering some areas which have been insufficiently addressed in the literature such as the implementation of clil in less successful contexts or learner teacher collaboration in the classroom this book will be of great value to researchers stakeholders and professionals interested in clil and language education this book was originally published as a special issue of the international journal of bilingual education and bilingualism

these days numerous studies document and advocate the potential effectiveness of the clil approach which is viewed as a real revolution in second language pedagogy european bilingual education models are currently exemplified by clil content and language integrated learning a new generic and or umbrella term for bilingual education which has been rapidly spreading throughout europe since the mid nineties over the last decade there has been an explosion of interest in clil pedagogy in europe and beyond however clil pedagogy also involves complex challenges concerning its implementation and the professional development of teachers this publication provides readers with a collection of original papers covering essential aspects of clil pedagogy this collection of papers serves as a good indication that valuable research is

being conducted throughout europe and that clil research is establishing itself as an important area of applied linguistics this book is mainly addressed to those in service teachers who teach in bilingual classrooms anywhere in the world under any circumstances and who wish to know more about clil pedagogy it can also be used as a helpful handbook for efl student teachers the book is also for teacher trainers running both pre service and in service courses

content and language integrated learning clil has now become a feature of education in europe from primary school to university level clil programmes are intended to integrate language and content learning in a process of mutual enrichment yet there is little consensus as to how this is to be achieved or how the outcomes of such programmes should be measured it is evident that a further type of integration is required that of bringing the practice of clil into closer contact with the theory in this it is necessary to establish the role played by other fundamental aspects of the learning process including learner and teacher perspectives learning strategies task design and general pedagogical approaches the first part of this book provides a variety of theoretical approaches to the question of what integration means in clil addressing key skills and competences that are taught and learned in clil classrooms and exploring the role of content and language teachers in achieving an integrated syllabus the second part takes specific cases and experimental studies conducted at different educational levels and analyses them in the light of theoretical considerations

similar to immersion iti content and language integrated learning clil combines second language education with other content subjects and has become an important educational approach in many parts of the world only recently research on clil classrooms has started to emerge on the international scene this volume presents current work dealing with classrooms located in australia austria belgium finland germany and the uk focussing on various dimensions of classroom talk such as oral proficiency repair the structure of learning opportunities cognitive effects pragmatic differences from traditional efl lessons as well as issues of research methodology these are complemented by the discussion of educational policies and the perceptions and attitudes of clil teachers

content and language integrated learning clil is a form of education that combines language and content learning objectives a shared

concern with other models of bilingual education while clil research has often addressed learning outcomes this volume focuses on how integration can be conceptualised and investigated using different theoretical and methodological approaches ranging from socioconstructivist learning theories to systemic functional linguistics the book explores three intersecting perspectives on integration concerning curriculum and pedagogic planning participant perceptions and classroom practices the ensuing multidimensionality highlights that in the inherent connectedness of content and language various institutional pedagogical and personal aspects of integration also need to be considered

bilingual education or clil at primary school varies greatly across european educational contexts teaching young learners in bilingual settings reports on a study that explored one such clil context in dortmund germany through interviews and classroom observations the researcher and author sought not only to document some of what takes place in clil classrooms but to describe and understand teachers thoughts and beliefs about their clil teaching practices this research contributes to a better understanding of primary school clil programs and teachers and is relevant for researchers working in the fields of foreign language education bilingual education and language teacher cognition research furthermore the insights into clil teachers thinking can support clil teachers administrators and policy makers as they seek to further develop clil pedagogy and programs

this title discusses the concept of learner autonomy in content and language integrated learning clil while the language learning benefits of clil are well documented the author shows that there may be hidden problems in clil settings in the area of learner autonomy the book raises awareness for these problems and shows possible solutions

this edited book explores critical issues relating to content and language integrated learning clil and english as a medium of instruction emi setting out their similarities and differences to demystify the terms and their implications for classroom practice the authors show how clil and emi practices are carried out in different institutional contexts and demonstrate how both approaches can benefit language and content acquisition this book is addressed to second foreign language teaching staff involved in teaching in english at primary education secondary

education and higher education levels

master s thesis from the year 2015 in the subject didactics for the subject english pedagogy literature studies grade a course master of science in teaching english language english abstract clil has been promoted for solving problems of traditional language learning student motivation and overcrowded curriculum but the driving forces for implementing clil programs are different in each country there is great accordance within the european union that existing language barriers need to be broken down to enhance the european integration marsh 2002 therefore it is important that most of the students have a communicative proficiency in languages other than their mother tongue this communicative proficiency can be reached in language teaching by many ways one method is content and language integrated learning clil clil is an approach that integrates the teaching of subject content with the teaching of a non native language learning other languages is very important in our global society the knowledge of different languages helps learners to develop skills also in their first language it helps them to develop skills to communicate about science arts and technologies to people around the world in a clil classroom the subject content and language skills are taught together the new curricula for the austrian upper secondary vocational colleges technical as well as economic require the usage of the english language in content subjects within all subjects and teachers there must be at least 72 lessons per year taught in english

this book represents the first collection of studies on content and language integrated learning clil which brings together a range of perspectives through which clil has been investigated within applied linguistics the book aims to show how the four perspectives of second language acquisition sla systemic functional linguistics sfl discourse analysis and sociolinguistics highlight different important aspects of clil as a context for second language development each of the four sections in the book opens with an overview of one of the perspectives written by a leading scholar in the field and is then followed by three empirical studies which focus on specific aspects of clil seen from this perspective topics covered include motivation the use of tasks pragmatic development speech functions in spoken interaction the use of evaluative language in expressing content knowledge in writing multimodal interaction assessment for learning l1 use in the classroom english medium instruction in universities and clil teachers professional identities

this volume explores the current position of clil on the three main fronts where it is attracting particular attention in specialized literature namely implementation research and teacher training to this end it presents evidence from national and international research projects governmentally financed pedagogical initiatives grassroots experiences and investigations and inter institutional training programs which offer insights into how clil is working in action on the afore mentioned three levels the opening section of the book clil in action practical considerations provides a window into how clil implementation is unravelling at the grassroots level vis à vis key aspects for clil development such as the design of materials the use of ict and the importance of extramural exposure the second part the effects of clil on language learning research based evidence explores some key areas for future research showcasing how engaging in research as a device that drives reflection is the best possible way to continue moving the clil agenda forward finally in the third part preparing teachers for clil practical proposals the interface of research and pedagogy is discussed as the former informs the latter in a clear instantiation of what coyle 2011 terms evidence based practice in setting necessary teacher training actions in place as such the volume addresses three burning issues in the clil scenario through practical and research based proposals of tried and true clil development if all three strands implementation research and training dovetail and progress in harmony a solid template will be built for the future and the clil agenda will be pushed forward by pooling together the insights of a set of researchers teacher trainers policy makers and grassroots practitioners this volume will contribute to this much needed endeavour

over the years various types of experimental projects have been carried out in italy at different levels of education clil practices have moved from limited small scale experiments to elaborated projects involving technology materials design and the creation of clil networks this volume is a collection of works by both language and content teachers at all levels of education who have in the past six years embarked on a clil type journey the book is organized into two sections the first part highlights some considerations that are more theoretical in nature the purpose is to provide moments of reflection on these issues and or bring to light other matters that merit further discussion the second part is more pragmatic in nature dealing with proposals and projects already implemented in schools and at university the chapters extol the numerous studies that have been going on in this field in the past decades they contribute to the existing research in terms of small scale

explorations that highlight the development of clil over the years a cautious progress that has led professionals to move from initial steps or simple trials to more complex tangible clil learning objects a testimony of diversity in approaches showing how rich and vibrant the field of clil studies is and will continue to be in the future
