plato's five dialogues euthyphro apology crito meno phaedo plato was a philosopher in classical greece and the founder of the academy in athens the first institution of higher learning in the western world he is widely considered the most pivotal figure in the development of philosophy especially the western tradition unlike nearly all of his philosophical contemporaries plato's entire work is believed to have survived intact for over 2 400 years others believe that the oldest extant manuscript dates to around ad 895 1100 years after plato's death this makes it difficult to know exactly what plato wrote along with his teacher socrates and his most famous student aristotle plato laid the very foundations of western philosophy and science alfred north whitehead once noted the safest general characterization of the european philosophical tradition is that it consists of a series of footnotes to plato in addition to being a foundational figure for western science philosophy and mathematics plato has also often been cited as one of the founders of western religion and spirituality plato's influence on christianity is often thought to be mediated by his major influence on saint augustine of hippo one of the most important philosophers and theologians in the foundation of the western

thought in the 19th century the philosopher nietzsche called christianity platonism for the people numenius of apamea viewed this differently he called plato the hellenic moses this would justify the superiority of christianity over hellenism because moses predates plato thus the original source of this wisdom is the root of christianity and not hellenistic culture 12 plato was the innovator of the written dialogue and dialectic forms in philosophy plato appears to have been the founder of western political philosophy with his republic and laws among other dialogues providing some of the earliest extant treatments of political questions from a philosophical perspective plato s own most decisive philosophical influences are usually thought to have been socrates parmenides heraclitus and pythagoras although few of his predecessors works remain extant and much of what we know about these figures today derives from plato himself

by far the most definitive version of the dialogues complete student edition the five dialogues of plato complete version with introductions the five dialogues of plato translated by benjamin jowett introduction benjamin jowett amaylisis by benjamin jowett i cannot agree with mr grote in admitting as genuine all the writings commonly attributed to plato in antiquity any more than with schaarschmidt and some other german critics who reject nearly half of them the german critics to whom i refer proceed chiefly on grounds of internal evidence they appear to me to lay too much stress on the variety of doctrine and style which must be equally acknowledged as a fact even in the dialogues regarded by schaarschmidt as genuine e g in the phaedrus or symposium when compared with the laws he who admits works so different in style and matter to have been the composition of the same author need have no difficulty in admitting the sophist or the politicus the negative argument adduced by the same school of critics which is based on the silence of aristotle is not worthy of much consideration for why should aristotle because he has quoted several dialogues of plato have quoted them all something must be allowed to chance and to the nature of the subjects treated of in them on the other hand mr grote trusts mainly to the alexandrian canon but i hardly think that we are justified in attributing much weight to the authority of the alexandrian librarians in an age when there was no regular publication of books and every temptation to forge them and in which the writings of a school were naturally attributed to the founder of the school and even without intentional fraud there was an inclination to believe rather than to enquire would mr grote accept as

genuine all the writings which he finds in the lists of learned ancients attributed to hippocrates to xenophon to aristotle the alexandrian canon of the platonic writings is deprived of credit by the admission of the epistles which are not only unworthy of plato and in several passages plagiarized from him but flagrantly at variance with historical fact it will be seen also that i do not agree with mr grote s views about the sophists nor with the low estimate which he has formed of plato s laws nor with his opinion respecting plato s doctrine of the rotation of the earth but i am not going to lay hands on my father parmenides soph who will i hope forgive me for differing from him on these points i cannot close this preface without expressing my deep respect for his noble and gentle character and the great services which he has rendered to greek literature
