the scots had an enormous impact on the global development of the british empire as emigrants soldiers merchants and colonial administrators this book explores in depth many key themes including the slave trade the scots on the colonial frontier highland soldiers and more

this volume emerged from an international research colloquium jointly organised by national museums scotland and the scottish centre for diaspora studies university of edinburgh funded by the scottish government and administered by the royal society of edinburgh historians and museum curators from australia canada new zealand and south africa were invited to join with their scottish counterparts to consider the functioning and the meaning of military scottishness in different commonwealth countries and in britain from the late victorian period to the present day with a particular focus on the impact of the first world war another key objective was to throw light on the hidden culture of social networking which potentially operated behind local regiments and military units amongst scotland s global diaspora this edited collection provides a comparative overview of the nineteenth century emergence of military scottishness and explores how the construction and performance of scottish military identity has evolved in different commonwealth countries over the late nineteenth and twentieth centuries in particular it looks at the ways in which scottish volunteer regiments in commonwealth countries variously sought to draw upon align themselves with or at certain key moments redefine the assertions of martial identity which highland regiments represented

this is a very welcome book which makes a contribution both to the burgeoning field of scots in the empire and to atlantic history dobson has fresh things to say about the controversial scottish role in the slave trade emigration to the americas and the intriguing role of the east of scotland in colonial commerce a sector previously assumed to be the exclusive monopoly of glasgow and the clyde ports a thoroughly researched study based mainly on original sources tm devine sir william fraser professor of scottish history and palaeography and director of the scottish centre of diaspora studies university of edinburgh in the series perspectives scottish studies of the long eighteenth century series editor andrew hook the long eighteenth century in scotland is increasingly recognized as a period of outstanding cultural achievement in these years both the scottish enlightenment and scottish romanticism made lasting contributions to western

intellectual and cultural life this series is designed to further our understanding of this crucial era in a range of ways by reprinting less familiar but important works by writers in the period itself by producing new editions of key out of print books by modern scholars and by publishing new research and criticism by contemporary scholars

the volume investigates how the british french german and dutch empires influenced or were influenced by scientific exploration as a means western culture used to gain entry to the non western world from around 1800 to the middle of the 20th century the transnational perspective aids an understanding and comparison of the sciences as an instrument which the colonial powers employed to gain economic advantage and political control the essays pay tribute to the metropolitan centre and colonial periphery viewpoints and to the different ways in which imperial expansion occurred science had specific meanings in the specific historical realities of european colonialism the european case studies present similarities and differences in their imperial systems and in the way in which science was used in relation to the level at which they interacted intellectually with the indigenous populations
