originating from a study of the people's attitude in the first thirty years of the nineteenth century toward the classics English translations from the Greek by Finley Melville Kendall Foster lists the significant translations published during those years in order to have the necessary material for a close study of the original list. Extensive research was conducted for around fifty years; the result of these discoveries is embodied in the list of translations that make up this book's contents. Foster hopes to educate people about and make them familiar with the various kinds of Greek literature that have been popular at different times during the last four hundred and thirty years. He has in no way attempted to discuss the standards or the benchmarks of a good translation; the reason being that the making of an English version of a Greek original presents difficulties little distinct from those of translation from any other language into English.
